01. What is DreamsCT [Dreams Come True] game?

DreamsCT [Dreams Come True] is one of the Metacon projects. DreamsCT inherits the spirit and wisdom of its ancestors from the past, enabling many people's dreams to come true. In the past, our ancestors had a tradition of living by helping each other through hard work, called *Pumat*. In addition, there are private cooperatives for mutual aid that can generate high interest and high income through the auction method, such as the winning bid system. DreamsCT builds a blockchain-based game that merges the spirit and wisdom of our ancestors with modern lottery games. It is a game where you guess 6 numbers out of 45 numbers, just like the lottery. But if there is no winner by the 10th round, the golden round rule is applied to the 11th round (named 'Golden Round') so that the 1st prize is unconditionally won. DreamsCT has completely excluded speculation so that participants can participate once a week, and through the application method based on smart contracts through blockchain, it is configured to be impossible to forge or falsify under any circumstances. In addition, DreamsCT's winning numbers provide a fair and reliable game environment to all participants by using the lottery numbers of the companion lottery as it is to block manipulation controversy in advance. DreamsCT will be operated as an environment where all participants can realize their dreams. **CONUN does not acquire a single coin from DreamsCT.** For some it will be a dream come true and for others it will be hope. CONUN hopes that will be possible through this game.

The 20th round of DreamsCT will be proceeded as Golden Round.

From now on, Golden Round will be held every other week

***Round 21 is General Round**

***Round 22 is Golden Round**

***Round 23 is General Round**

***Round 24 is Golden Round**

01. What is DreamsCT [Dreams Come True] game?

01 DreamsCT is a game that can be enjoyed in CONUN's Metacon wallet.

02 Metacon is a cryptocurrency wallet and does not store or save any personal information.

03 CONUN only has access to the wallet address of the person who has applied for the game. Even if the applicant wins, we do not know their personal information.

04 **CONUN does not benefit a single CYCON from the DreamsCT game.**

05 You can apply for the DreamsCT game once a week with CONUN coins worth 5,000 KRW. This game will be an opportunity for lucky winners to achieve their dreams.

06 DreamsCT game unconditionally creates a winning round (Golden Round) if there are 10 consecutive rounds of wins without a winner. The Golden Round applies special rules for the 11th round for unconditional win.

07 The Golden Round applies the unconditional winning rule, so the odds of winning can go up to 1/183. If there are many winners, 1/n is applied and given.

08 As mentioned in number 7 above, the probability of winning is very high, so many people will win.

“

CONUN's hope is that DreamsCT will be a game that becomes an opportunity, hope, and a **game where many people can achieve their dreams.**

02. How to participate

1

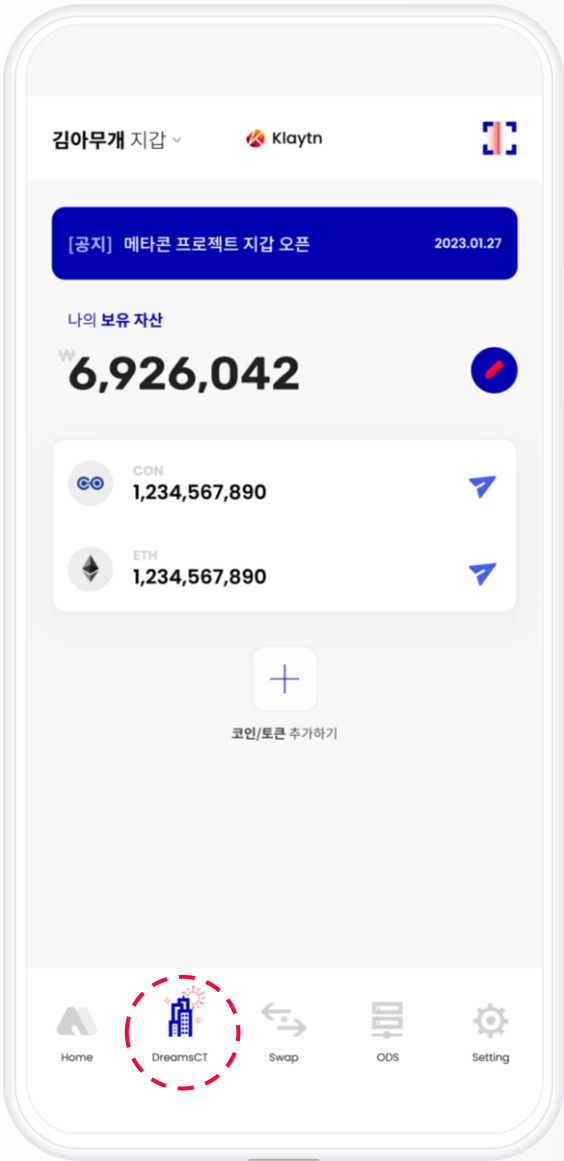

Install Metacon app

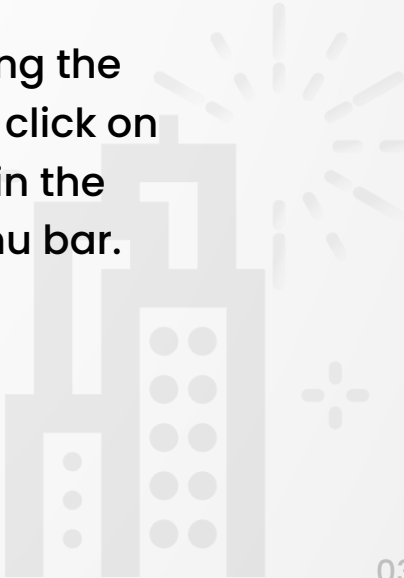

Install the Metacon app and create or import a wallet to apply for DreamsCT raffle tickets.

2

Click on DreamsCT

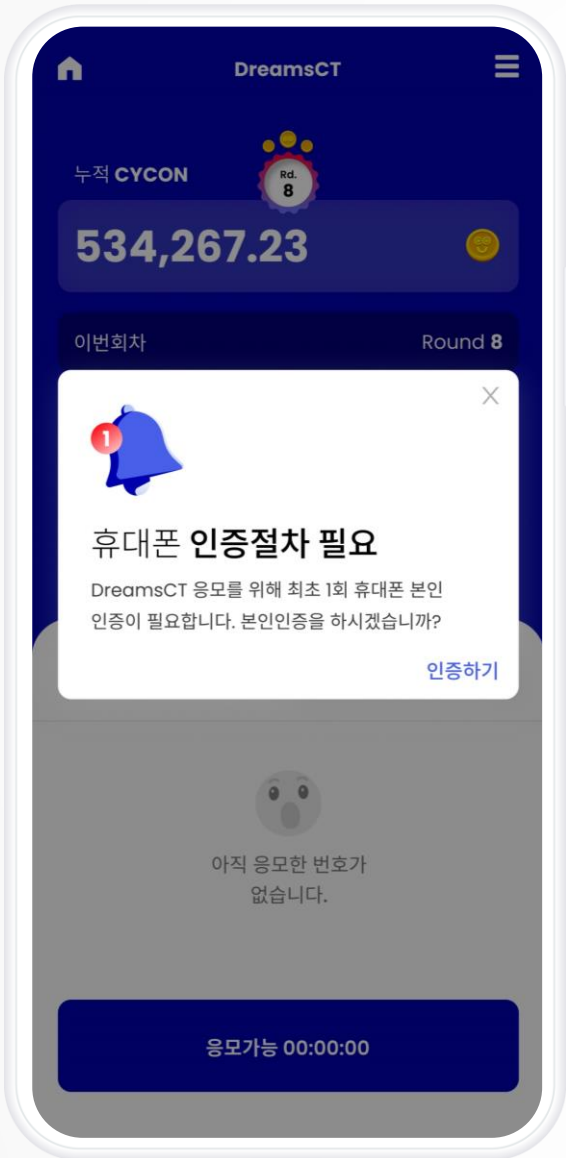

After installing the Metacon app, click on DreamsCT in the bottom menu bar.

3

First-time phone verification

In order to apply for a DreamsCT raffle ticket, the first-time phone verification is required.

4

DreamsCT terms of use

Agreeing to the terms of use is required to apply for DreamsCT.

5

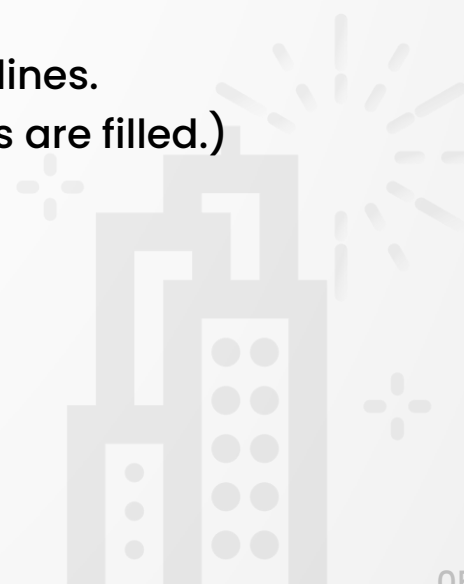

The image displays three sequential screens of a mobile application during Round 8. Each screen features a dark blue header with a back arrow, the text 'Round 8', and a timer icon showing 'Rd. 8'.

Below the header, there are five rows of colored circles, labeled #A through #E. Each row has a '삭제' (Delete) button to its right. The circles are arranged in a horizontal bar. In the first screen, the 7th circle in row #A is highlighted with a red checkmark. In the second screen, the circles contain numbers. In the third screen, the circles contain asterisks.

At the bottom of each screen is a grid of numbers from 1 to 45, arranged in 5 rows and 9 columns. The numbers are displayed in a light gray font on a dark blue background. Below the grid is a '자동선택' (Auto Select) button.

At the very bottom of each screen is a large blue button labeled '다음' (Next).

Manual/Auto will freely select 30 numbers in 5 lines.
(You cannot apply unless all 30 numbers in the 5 lines are filled.)

Pay 5,000 KRW worth of CYCON. (You must have CYCON worth 5,000 won or more in your wallet.)

DreamsCT raffle tickets cannot be modified or refunded.

8

Check application history

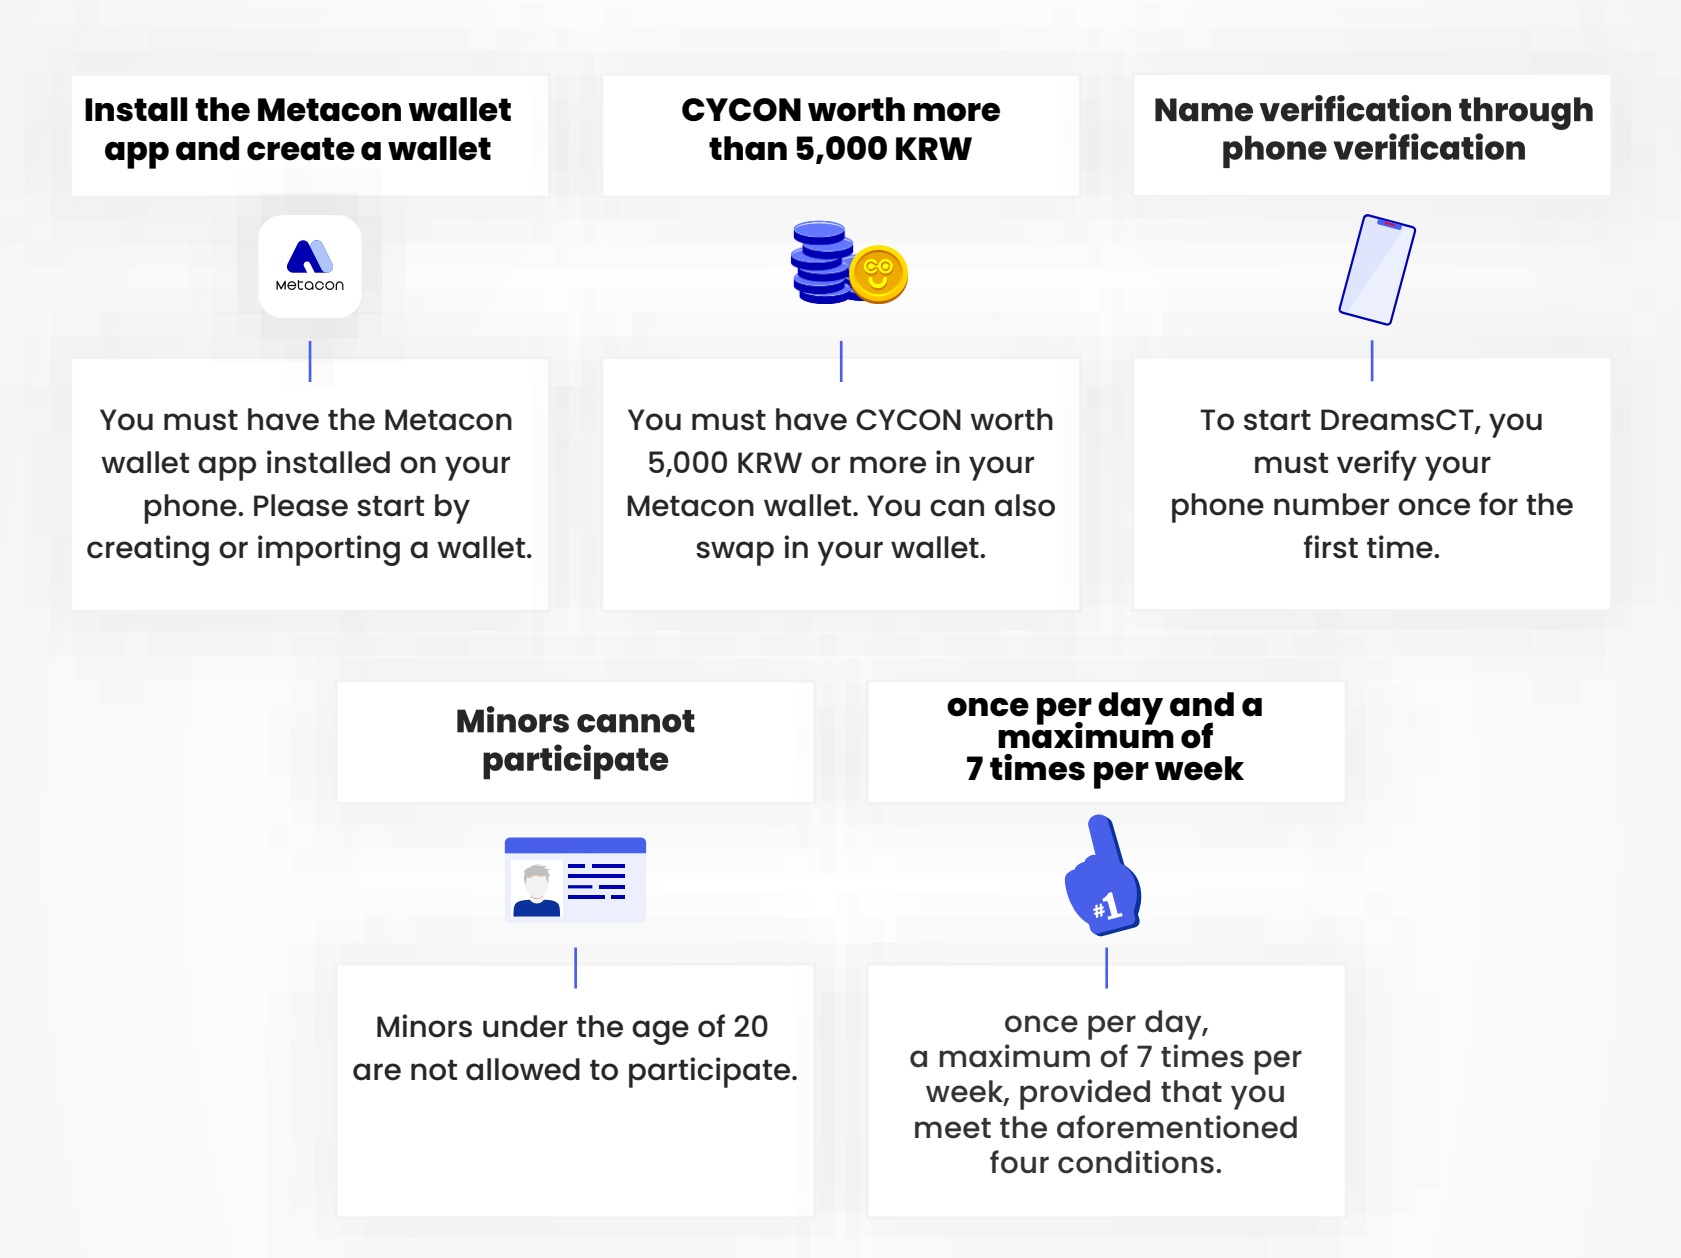

Application history details can be found at the bottom of the DreamsCT main page, in the application history in the menu bar.

03. Participation criteria

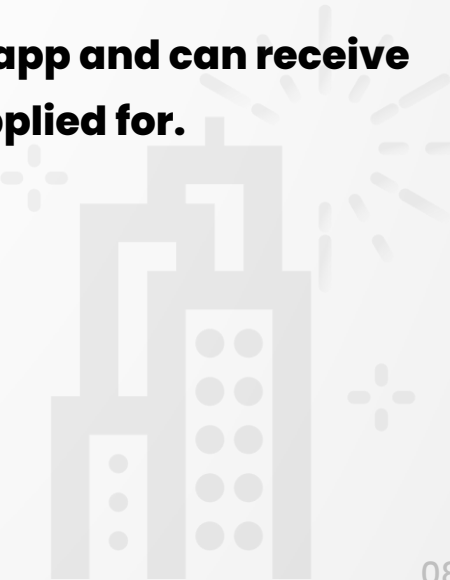

To apply for DreamsCT [Dreams Come True] tickets, you must meet the following requirements.

Only users who meet the above criteria can apply for DreamsCT raffle tickets.

*** Participating users can check their winnings through their own app and can receive the winning CYCON within 7business days in their wallet they applied for.**

04. Set a minimum winning amount

01

In order to revitalize DreamsCT, the minimum winning amount is set as CYCON worth 50 million KRW.

02

After the 1st prize draw, if there are not enough applicants who applied for DreamsCT and CYCON worth less than 50 million KRW are accumulated, compensation will be given based on the minimum winning amount of 50 million KRW.

If there are enough applicants and the amount exceeds the minimum amount, the winning amount will be received normally.

03

In order to guarantee the minimum winning amount, the top priority is to pay 10% of the accumulated operating CYCON out of the total application CYCON.

04

05. Winning criteria [1. General Round]

The criteria for winning DreamsCT are as follows.
The order of items belonging to each group is the winning priority.

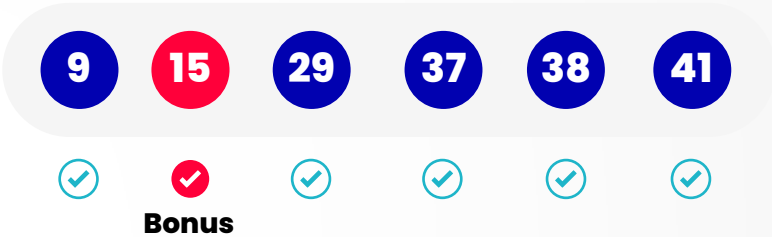

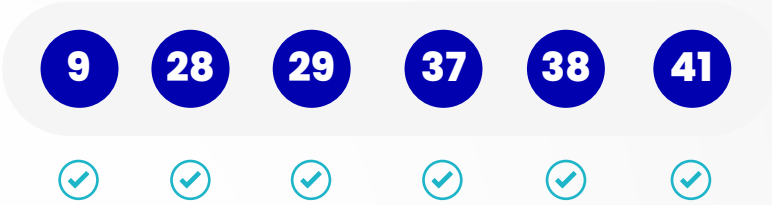

RoundN winning number
*The numbers below are examples.

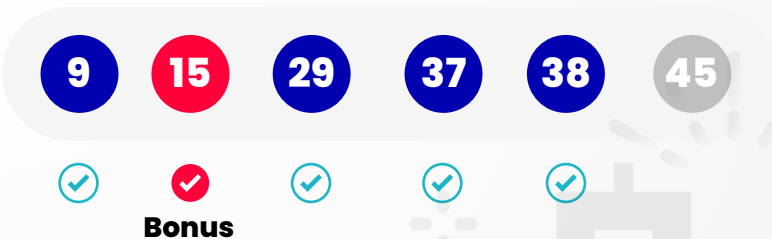

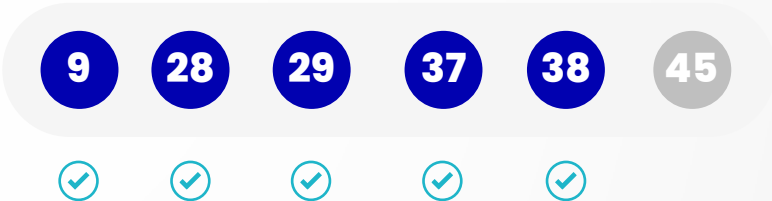

1st place

- 1) If the 6 numbers applied are the same as the 6 winning numbers.
- 2) If there is no winner in paragraph 1) above, if 6 out of 7 numbers, including the winning number and bonus number, are the same as the 6 numbers you applied for.
- 3) If there are many winners, 1/n is given.

2nd place

- 1) If the 6 numbers applied are the same as the 5 winning numbers.
- 2) If there is no winner in paragraph 1) above, if 5 out of 7 numbers, including the winning number and bonus number, are the same as the 5 numbers you applied for.
- 3) If there are many winners, 1/n is given.

05. Winning criteria [1. General Round]

The criteria for winning DreamsCT are as follows.
The order of items belonging to each group is the winning priority.

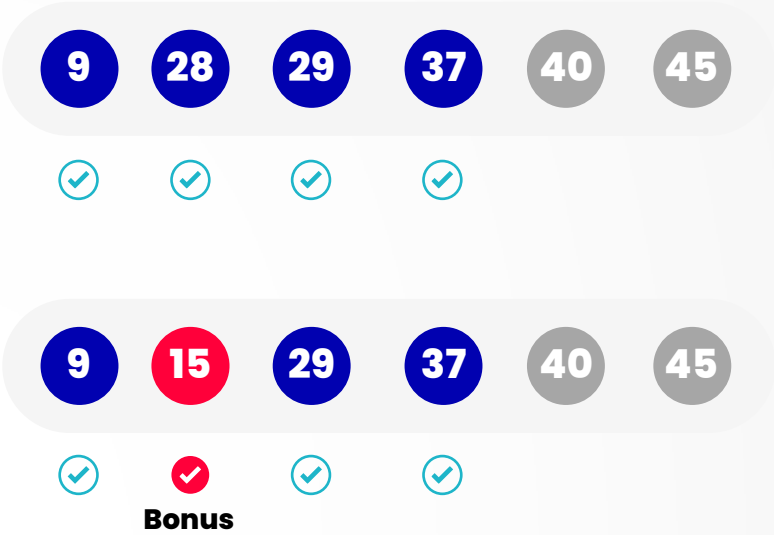

RoundN winning number
*The numbers below are examples.

3rd place

- 1) If the 6 numbers applied are the same as the 6 winning numbers.
- 2) If there is no winner in paragraph 1) above, if 6 out of 7 numbers, including the winning number and bonus number, are the same as the 6 numbers you applied for.
- 3) If there are many winners, 1/n is given.

05. Winning criteria

[2. Golden Round Unconditional winning round]

If there is no first prize winner during the cumulative 10 rounds (the 11th round is called the Golden Round)

If there are 10 rounds in a row where there is no first-place winner, the next round which is the 11th round, **applies special rules to win unconditionally**. The criteria of the special rules are as follows. If there are many winners, the CYCON is given to the winners in 1/N.

Golden Round special rules

Golden round winning rules [Winning Priority]

- 01) If 6 out of 6 numbers applied are the same as the winning number.
- 02) **If 1) is not applicable:**
If 6 out of 7 numbers, including 6 winning numbers and 1 bonus number, are the same.
- 03) **If 1) and 2) are not applicable:**
If 5 out of 6 numbers applied are the same as the winning number.
- 04) **If 1), 2) and 3) are not applicable:**
If 5 out of 7 numbers, including 6 winnings numbers and 1 bonus number, are the same.
- 05) **If 1), 2), 3) and 4) are not applicable:**
If 4 out of 6 numbers applied are the same as the winning number.
- 06) **If 1), 2), 3), 4) and 5) are not applicable:**
If 4 out of 7 numbers, including 6 winnings numbers and 1 bonus number, are the same.
- 07) In the 11th round, there is no 2nd or 3rd place. This is because 3) above is the criteria for winning the 2nd prize and 5) above is the same as the criteria for winning 3rd prize.
- 08) When the Golden Round is implemented, the 2nd and 3rd cumulative CYCONs are included in the 1st cumulative CYCON. Until further notice by the company, the minimum winning amount for the Golden Round is set as CYCON equivalent to 5 million won. Depending on the situation, the number of applicants may change.
- 09) If there is no winner until 6), the cumulative amount is carried toward, and the 12th round is unconditionally extended
- 10) The entry requirement for the Golden Round is limited to participants who have entered at least 6 times within a week. The provisions of this clause apply only if a first-place winner does not emerge until the next Golden Round. Once a first-place winner is determined, the implementation of this clause will begin from the 11th round, following a period of 10 consecutive rounds where no winner emerged from the rounds where a first-place winner did not occur.
- 11) The cumulative number indicates the total number of CYCONs that have applied.
- 12) If the cumulative CYCON is valued at more than 10 billion KRW, it can be operated as a Golden Round by applying the golden rule.

05. Winning criteria [3. Receive CYCON for 1st prize winner]

01

For the winners of the golden round, **20%** of the winning CYCON payment is divided every month for **5months** from the date of winning to stabilize the token price.

02

Even if there are multiple winners, it can be paid in **two** or more installments to stabilize the token price, and the number of installments does not exceed **five**.

03

The winner of the golden round donates **10%** of the winning amount. In principle, this donation is made directly from the head office in the name of the head office, but if requested by the donor, it will be made in the name of the donor. However, in the case of donation in the name of the donor, the donor must take their identity data and direct contact with the headquarters (the headquarters does not know the identity of the winner as it only knows the wallet address).

04

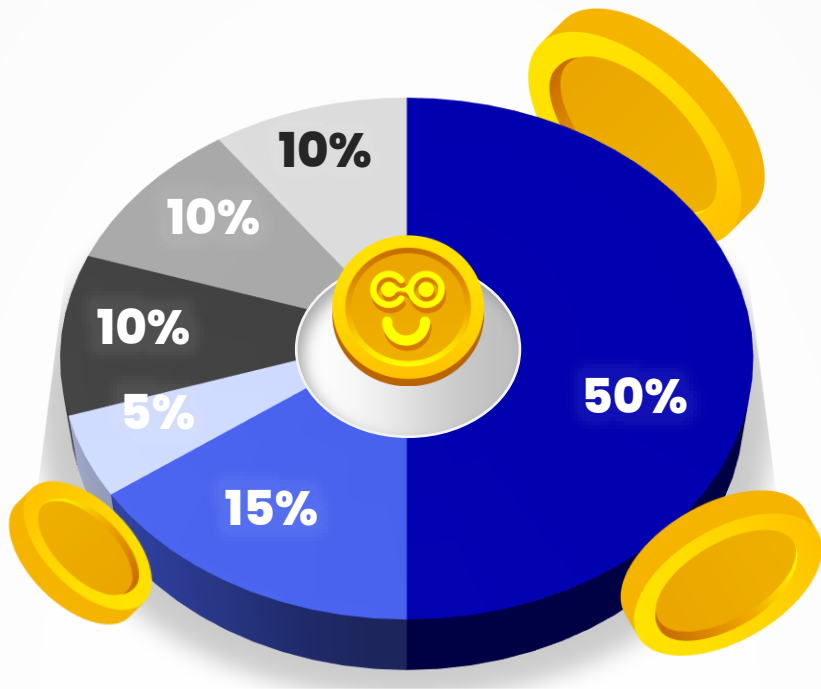

It is mandatory to agree to the above rules, and if you do not agree, you will not be able to participate in DreamsCT.

06. Distribution of CYCON

CONUN does not take a single CYCON from the DreamsCT game.
As the game operator, CONUN only operates to make the game enjoyable for users.

1등 50%	2등 15%	3등 5%
기부 10%	소각 10%	운영 10%

- * **Operation:** If there is a winner, it will be operated as a winning CYCON for the next round.
- * **Burn:** Send it to the black hole wallet and burn it.
- * **Donation:** Make donations through direct donations, not through agents receiving donations. Details of donations are updated in real time on the homepage and Metacon notice.

07. 1st prize probability

Probability of winning 6 numbers	1/ 8,145,060	
Probability of winning 6 numbers	1/ 1,357,510	Including bonus number
Probability of winning 5 numbers	1/ 35,724	
Probability of winning 5 numbers	1/ 7,145	Including bonus number
Probability of winning 4 numbers	1/ 733	
Probability of winning 4 numbers	1/ 183	Including bonus number
